

TECHNICAL DATA SHEET

ALL - NEW

COMPOSITION: ALL - NEW is a blend of quality perfume oils in a water base solubilised by Iso-Propyl Alcohol and a fully biodegradable non-ionic Surfactant.

BENEFITS: ALL- NEW provides pleasant blend of lingering bouquet perfumes acting as a deodorant spray for most public areas. ALL - NEW is supplied in liquid bulk form for application through reusable hand sprayers. Therefore much more economical than aerosol room sprays with less ecological pollution from empty cans. ALL - NEW is an industrial strength deodorant and should be used sparingly to provide a pleasant background perfume throughout the working day. ALL - NEW is totally safe in use, containing no toxic compounds. It can be safely recommended for use in Old Peoples' Homes, Children's Homes, etc. ALL - NEW offers a fresh alternative to conventional pine, lemon and other citrus "fruity" odours.

DIRECTIONS FOR USE: Use as supplied in a **POLYSPRAYER** with fine spray head. Use sparingly as product is a concentrated industrial deodorant. For large areas such as sewage farms, cinemas, concert halls, etc. use the **PORTABLE FOGGER** to rapidly and economically deodorise stale areas. Recommended for use through spray installations serving sewage farms, refuse tips and crematoriums.

SPECIFICATIONS: Appearance	-	Clear orange/pink liquid
Odour	-	Pleasant floral bouquet
Specific Gravity	-	Approx. 1.0
pH	-	7 (neutral)
Safety	-	Safe when used as directed

HOSPITAL NOTE: ALL - NEW is primarily water based with 12% Isopropyl Alcohol and 1.5% non-ionic detergent (**NON-TOXIC**) SOLUBILISING PERFUME OILS. If swallowed, emetic can be given, as product is non-toxic and non-corrosive. Alternatively, give plenty of water to dilute the effect of the Alcohol.

BEST-CHEM LTD. IS AN ISO 9002 REGISTERED FIRM.
