

# TECHNICAL DATA SHEET

## CINAGIN

**COMPOSITION:** **CINAGIN** is a blend of Glycol and Quaternary Ammonium Compound Sanitisers, Special Odour Neutralisers, Alcohol's and Cinnamon Perfume.

**BENEFITS:** **CINAGIN** completely neutralises odours from tobacco smoke, mildew, onions, garlic, deep fat fryers and other undesirable food odours including fish.  
Replaces bad odours with the pleasant light smell of cinnamon.  
Contains active germicidal agents to reduce the spread of infectious organisms.  
The use of **CINAGIN** in sickrooms, bathrooms, washrooms, fitting rooms, kitchens and other similar places will provide clean refreshing air conditions that will last for several hours.  
Highly effective deodorant for "unpleasant" industrial odours i.e. Abattoirs, Leather Works, Sewage Farms, Broiler Farms, Bone Mills, Crematoriums, etc.  
Safe to use in most outlets where conventional "air fresheners" are sold.  
Can be sprayed into air conditioning systems to relieve musty odours.  
**CINAGIN** solves the odour control problems for restaurants, hotels, schools, hospitals, industry and local authorities.

**DIRECTIONS FOR USE:** Using **POLYSPRAYER** unit with fine spray head spray **CINAGIN** sparingly in area where undesirable odour exists. After 2-3 minutes the undesirable odours will be gone and replaced with a pleasant cinnamon odour. **CINAGIN** is long lasting. Repeat only when necessary.  
For treating large areas i.e. sewage beds, etc. the use of **FOGGER** is recommended.

**SPECIFICATIONS:**

Appearance	-	Clear yellow mobile liquid
Odour	-	Strong cinnamon
Specific Gravity	-	Approx. 1.0
pH	-	7 (neutral)
Safety	-	Completely safe when used as directed

***BEST-CHEM LTD. IS AN ISO 9002 REGISTERED FIRM.***
