

TECHNICAL DATA SHEET

FLEET KLEEN

ALL PURPOSE SAFE TRAFFIC FILM REMOVER

COMPOSITION: **FLEET KLEEN** is a caustic-free water based blend of biodegradable detergents and water control additives suitable for all water supplies.

BENEFITS: Removes road film without brushing.
Safe on vans, lorries, cars and buses.
Water based, non-caustic, non-flammable.
Can be used with both hot and cold pressure machines.
Cleans the most stubborn dirt from all painted vehicles without removing sign writing or causing white streaking on coach paint.

DIRECTIONS FOR USE:

- 1) Use **FLEET KLEEN** direct through the machine for heaviest soiling (1:30 approx. at nozzle) and pre-dilute 1:5 with water for lighter soiling (1:150 approx. nozzle).
- 2) Prespray hot or cold from bottom up, cover one side of vehicle allow to dwell for a few minutes (**DO NOT ALLOW TO DRY ON**).
- 3) Chisel off road film holding jet 6-9" from surface with water only.

SPECIFICATIONS:

Appearance	-	Clear purplish/red foaming liquid
Odour	-	Slight ammoniacal odour
Specific Gravity	-	1.07
pH	-	13.5 - 14.0 (concentrate)
Safety	-	Safe when used as directed.

CAUTION: **ALKALINE CLEANER CONCENTRATE.**
Avoid excessive skin contact with concentrate.
Wear gloves and goggles when using product.
