

# TECHNICAL DATA SHEET

# L.A.B.B.

# HAND CLEANER

**COMPOSITION:** L.A.B.B. is a solvent free blend of biodegradable synthetic detergents and emulsifiers combined with lanolised polymer beads and skin bactericides.

**BENEFITS:**

- Solvent-Free cleaner with Solvent-Gel cleaning power.
- Lanolised polymer beads have a gentle abrasive action.
- Skin tolerant bactericides (IRGASAN, PHENONIP) prevent cross-infection and maintain hygiene.
- Foam formula gives rapid lather in all weather conditions.
- Lanolised to preserve skin flexibility prevents cracking and dermatitis.
- Neutral antiseptic perfume to suit male and female preference.

**DIRECTIONS FOR USE:** Use as supplied, do not dilute.  
Rub well into the skin to loosen dirt and rinse well with water.  
For maximum economy use the **WALL DISPENSER.**

**SPECIFICATIONS:**

Appearance	-	Pink opalescent liquid gel
Odour	-	Characteristic antiseptic
Specific Gravity	-	Base prior to foaming 1.0
pH	-	approx. 9
Safety	-	Completely safe in use
