

TECHNICAL DATA SHEET

MULTI - 50

COMPOSITION: MULTI-50 is a blend of Sodium and Potassium Silicates, Sodium Phosphates, water miscible "Cellosive" solvents, water hardness control compounds and biodegradable non-ionic detergents.

BENEFITS: Highly versatile cleaning formula for use in Steam Cleaners, Pressure washers, Automatic Scrubbers and all Manual Maintenance.
MULTI-50 is the concentrate with built-in penetrating action that emulsifies deep down to every washable surface area.
Non-corrosive to all metals; contains no soap, acid, ammonia or free caustic.
Contains compounds to control foaming thereby eliminating costly time consuming rinsing operations.
Excellent soil suspension properties giving longer life before solution has to be changed.
Highly concentrated, can dilute up to 100:1.
Safe on transfers, air dried paint finishes at 80:1.
Excellent for pre- M.O.T.. inspection chassis cleaning.
THE MANY FEATURES AND BENEFITS OF MULTI-50 WILL ALLOW YOU TO USE ONE PRODUCT FOR ALL INDUSTRIAL MAINTENANCE CLEANING.

DIRECTIONS FOR USE:

AUTOMATIC SCRUBBERS:

LIGHT DUTY: 1 part MULTI-50 to 50 parts water

HEAVY DUTY: 1 part MULTI-50 to 10 parts water

STEAM CLEANING:

LIGHT DUTY: 1 part MULTI-50 to 100 parts water(1% strength at lance tip)

HEAVY DUTY: 1 part MULTI-50 to 25 parts water(usually 5 litres MULTI-50 TO 20 LITRES WATER IN DETERGENT CLEANER)

COLD PRESSURE WASHERS:

LIGHT DUTY: 1 part MULTI-50 to 50 parts water

HEAVY DUTY: 1 part MULTI-50 to 10 parts water

HAND USE FOR GENERAL PURPOSE INDUSTRIAL MAINTENANCE:

LIGHT DUTY: 1 part MULTI-50 to 50 parts water

HEAVY DUTY: 1 part MULTI-50 to 10 parts water

SPECIFICATIONS:

Appearance	-	Clear foaming mobile red liquid
Odour	-	Mild and sweet
Specific Gravity	-	1.10
Concentrate pH	-	13.0 - 13.5
Safety	-	Completely safe when used as directed

CAUTION: Avoid excessive skin contact with concentrate.
For splashes in the eye, wash liberally with cold water.

BEST-CHEM LTD. IS AN ISO 9002 REGISTERED FIRM.
